

Would not like for the LPFM stations to expand service in a way to allow them to take priority over the current FM translator service. I love my K-love station 106.7!!! This station serves me and provides valuable information to the public. The effect would be very detrimental to me and the community if it were to be replaced. Such positive, encouraging and uplifting radio programming-from the music to the messages and call in shows that help the listeners. Thank you,
Janice McMinn, Greensboro, NC
